

## Brenda Atkinson

Brenda has always enjoyed helping people. This passion has encouraged both a fulfilling career and various life experiences.

Originally from Southern Alberta, Brenda's background includes specific training in Reiki, Acutonics, Psychosomatic Energy work and Bioregulatory Medicine. She was a practicing Registered Massage Therapist and has managed a Naturopathic Clinic. The knowledge she acquired from working in a preventative medicine based clinic ultimately led her to becoming an integral member of the Therma-Can Inc. family.

Brenda is married with 3 daughters, 2 son-in-laws, and 2 granddaughters. On her time off, she owns and operates a small 7-acre farm, which provides them with many unique projects and tasks.

She believes that wellness must address the body, mind and spirit. Brenda is honored to be able to offer women with a new choice in their breast health care regiment. Improving breast health ultimately improves overall health and she is pleased to be working with wonderful health care practitioners who have the same mission.

Brenda currently serves the provinces of Alberta, British Columbia, and Saskatchewan. Contact Brenda at 1-866-681-8847 Ext.103 or <mailto:batkinson@thermacan.ca>
